Hi Bob,

Please find attached the comments we had on the Task 2 Memo. Please note that we are continuing our deliberations over the select materials to include for the methodologies for generation and recovery.

Thank you,  
Chris Carusiello

**Subject:** Industrial D Supplementary Table

Chris and Nicole:

In our Industrial D discussion last week, we suggested developing a summary table that included "best available" estimates of generation and recovery for each waste. A draft of that table is attached. Hopefully this will help with your internal discussions. Let us know if you have any questions. Thanks.
